

AGRO TRADELINE

Company Profile

About us

Agrotradeline CO. for Herbs and Spices

Agrotradeline CO. for Herbs and Spices is one of the top leading companies in Egypt for Processing & exporting of Herbs, Spices, Aromatic seeds and Dehydrated Vegetables.

We have been working from 2005 in these products, we are a mixed team work from first and second generation to comply with our customers demands increasing with best quality according to international standard Specifications.

So you can imagine our wide experience in products quality specifications, analysis, cleaning & packaging beside our experience in studying market prices and best time to buy.

Over the years we was dealing in local market, so we are very known and have a good name in Egypt, and after gain wide experience in processing and cleaning raw materials, we decided to start exporting our products to worldwide at 2015 , and within 5 years we built strong business relationship with many companies around the world.

We have committed our selves over years to achieve the highest standers of qualities and conformity with precise specifications at the demand of the market and main reason helping us to achieve that is that we have our own farms (cultivate, harvesting, drying, Processing & sifting, packing and then exporting) so our most products exported are fresh cropped with good colors and high content of essential oils.

Vision

To make our products the preferred choice for consumers locally, regionally and globally.

A small green icon of a seedling with two leaves.

Message

To provide healthy and high-quality products, cover the local market and create regional and global partnerships by exporting our products to many countries in the Gulf, the Middle East, Africa, the European Union and America.

Export Dates

Egypt, Saudi Arabia, Algeria and Iran are ranked as the world's largest producers of dates, and all of these countries share the same water scarcity problem, but palm trees can grow in these hot and dry climates, and they also have a high tolerance for salt water, which has allowed them to grow and find a source of food even in these difficult environmental conditions, such as deserts.

The largest Arab countries in date production

- Egypt 1.73 million tons.
- Saudi Arabia 1.6 million tons.
- Algeria 1.24 million tons.
- Iraq 715,293 tons.
- Sudan 442,667 tons.
- UAE 397,328 tons.
- Sultanate of Oman 376,980 tons.
- Tunisia 369,000 tons.
- Libya 187,870 tons.
- Morocco 137,393 tons.
- Kuwait 103,111 tons.

We export Dates with the best quality

We always make sure that our products accordance with the European specifications.

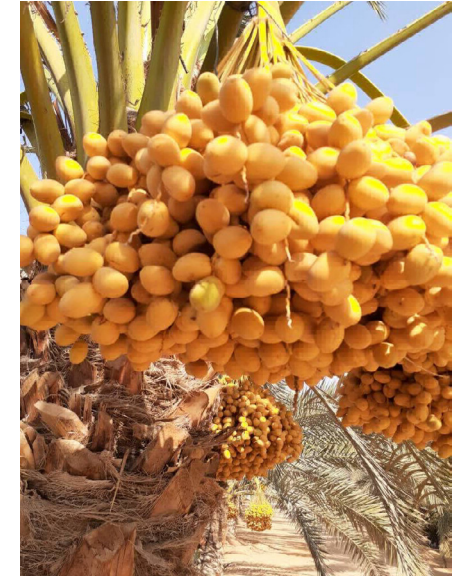

suppliers and always make sure that our products are of the highest quality in order to maintain our reputation first and in order to satisfy our customers .

We can provide the required quantities of the highest quality because we have been working in the export market since four years

and we have enough experience in that.

We always provide the best prices in the market while maintaining the quality of course.

We have a customer base we have been working with for more than three years and this is due to their confidence in us and to our quality and prices that do not compare.
